

Pallet Stretch Wrapping Machine

Pallet stretch wrapping machine is widely used in the outer packaging of food, medicine, electronics, bottle making, and other products.

The wrapped product can reduce the surface wear of the product, improve the sealing, and facilitate product storage and transportation. through Wrap-around packaging, not only the appearance of the product is beautiful, but also has good moisture, dust, rust, anti-aging, anti-accidental damage.

Features:

1. The packaging turntable adopts frequency conversion speed regulation, and the overlapping degree of the winding belt can be adjusted according to the packaging requirements.
2. The packing tape has adjustable tightness.
3. Manual / automatic working mode selection.
4. Packaging materials: stretch film, PE film, etc.

Main Specs:

Name:Pallet stretch wrapping machine

Model: PPD-PSW1500

Product height :≤1800mm

Product maximum diameter: 1500mm

Packaging material :PE stretch film

Stretch film width: 500mm Outer diameter: 250, Inner diameter: 55 or 76mm

Turntable speed 0-12m/min

Overlapping range Any overlap (adjustable)

Automatic cutter:pneumatic

Machine weight :900kg

Machine dimension:1550x550x2400mm(LxWxH)

Voltage:220V,50hz

Total power:2.2kw

NOTE:Different size can be customized
